RESPONSE TO RESTRICTION REQUIREMENT

Dear Sir:

In response to the Office Action dated April 8, 2003, please amend the above-identified application as follows:

REMARKS

The Office Action dated April 8, 2003 required restriction of the claims into two claim Groups, Group I drawn to a Bragg reflector device and Group II drawn to a method of configuring a Bragg reflector. In response, Applicants elect Group I, namely claims 1-3, 11, 12 and 17-19. However, Applicants do so with traverse.

The Examiner asserts that the inventions of the two claim Groups are distinct because they are related as a process of making and the product made.

However, according to M.P.E.P. §803, there are two separate criteria for a proper restriction requirement. First, the two inventions must be independent and distinct. In addition, there must be a serious burden on the Examiner if restriction is not required. Even if the first criterion has been met in the present case, the second criterion has not been met.
